SUMMARY

Data-driven Analyst and aspiring Data Scientist, with extensive experience in Policing.

Recently selected for and completed the Data Science Accelerator programme by the Office for National Statistics, prompting a professional change to Performance Analysis. This has driven my wish to build upon my Undergraduate Degree in Criminology, and begin PostGraduate studies in Data Science, in line with my vocational direction

WORK EXPERIENCE

ESSEX POLICE

Criminal Intelligence Analyst - Major Crime Department

Dec 2017 - Present

- Key role within major investigations, mainly Murders and Stranger Rapes. Including analysis of many large datasets from varied sources.
- Responsible for aiding the team, intelligence development (inferences, intelligence gaps, recommendations) and investigative actions.
- Competent in producing evidential packages to assist with taking investigations to trial. This includes giving evidence at Crown Court.

Criminal Intelligence Analyst - Community Safety Partnerships

Nov 2016 -Dec 2017

- Designated liaison between the Police and Local Councils when writing Strategic Assessments, setting key priorities for various areas.
- Experienced in working with numerous partnership agencies to achieve a common goal, producing findings in appropriate formats/mediums.
- Skilled in producing intelligence products such as Crime Pattern Analysis, Risk Analysis and Network Analysis, amongst others.

Crime Bureau Investigator

Aug 2016 - Nov 2016

- Responsible for answering 101 calls and speaking to victims of crime.
- Desk-based investigation, identifying actionable lines of enquiry.
- Detailed knowledge of Home Office Counting Rules, National Crime Recording Standards and National Standards for Incident Recording, as well as legal definitions and points-to-prove of a wealth of offences.
